

Is wakacje.pl legit? TrustSniffer's high-trust assessment: 98/100

wakacje.pl

Verdict

98

OUT OF 100

HIGH TRUST

wakacje.pl appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-17 by automated analysis. Classification confidence 55%.

What this site appears to be

Polish travel aggregator/booking site (Wakacje.pl) with privacy and cookie consent text, search/booking functionality, listings for holiday packages and support/contact information. Content and structure are consistent with an established consumer travel marketplace.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What wakacje.pl served when TrustSniffer captured it on 2026-08-17. The page may look different now.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

Wakacje.pl is a Polish travel booking and aggregation website that presents holiday packages and tour-operator offers, allowing visitors to search and reserve travel and generating revenue through bookings, commissions, insurance, and related add-ons.

Scam/Impersonation Risk

No contradictions were observed. The homepage has the structure of an established consumer marketplace, with travel listings, booking search, customer support information, privacy and cookie-consent content, and no detected phishing, impersonation, malicious form, or other fraud indicators. Its ordinary travel-commerce model is materially different from anomalous investment or payment-solicitation patterns, and external reputation checks were clean with an established global traffic footprint. The available evidence therefore supports a low scam and impersonation risk assessment, while not independently proving the real-world operator identity.

EVIDENCE

- The homepage is identified as “Wakacje.pl - Wycieczki i Wakacje | Oferty biur podróży” and contains travel offers, booking search, support information, and no reported red flags.
- Independent reputation checks recorded zero malicious and zero suspicious detections, with no blacklist or phishing result.
- The domain was registered in 1998 and is approximately 28.17 years old.

Regulatory Verification Notes

The site's privacy-consent text states that Wakacje.pl forms part of the Wirtualna Polska holding and identifies Wirtualna Polska as the publisher of the service. That is an on-site affiliation statement rather than independent proof of the legal operator. The available material does not show a claimed license, license number, or independently verified regulatory status; for a travel marketplace, this is a disclosure and verification matter rather than evidence of deception. The site otherwise presents a coherent consumer-service identity, and its technical and reputation signals support an established-site interpretation.

EVIDENCE

- The homepage consent notice states that Wakacje.pl is part of the Wirtualna Polska holding and identifies Wirtualna Polska as the publisher.
- The site's hosting resolves through AS12827, WirtualnaPolska - Wirtualna Polska Media S.A., PL.
- The transport certificate is issued by RapidSSL TLS RSA CA G1, uses DV validation, and is valid to 2026-10-25T23:59:59+00:00.

What to Verify Next

Before a credential or payment interaction, independently confirm the legal merchant or contracting entity shown in the booking documentation and check any applicable Polish travel-intermediary registration or consumer-protection requirements with the relevant official authority. Review cancellation, refund, insurance, and supplier terms in the booking flow, and confirm customer-support channels through an independently sourced route. Payment methods offering established dispute or chargeback protections are preferable for material transactions.

EVIDENCE

- The booking flow provides the relevant context for reviewing supplier, reservation, cancellation, and payment terms.
- The privacy and consent materials identify the publisher and describe data-processing arrangements that should be reconciled with the contracting entity shown at checkout.
- The site provides customer-support and contact information that can be compared with independently sourced business records.

Summary Verdict

The overall posture is **high trust and low risk**, and the available evidence is consistent with an established, apparently legitimate website. Legitimacy is not presented as proven because independent real-world operator

verification remains incomplete, but no contradictory scam, phishing, blacklist, or impersonation signals were observed.

Infrastructure Integrity

The site resolves directly to two likely origin addresses, with no detected CDN edge IPs or intermediary CDN/WAF layer. This exposes a conventional origin-hosting posture rather than indicating concealment; the resolved, coherent commercial hosting arrangement is a mitigating technical signal, not proof of legitimacy.

EVIDENCE

- Infrastructure resolution identified 2 likely origin IP addresses and 0 edge IP addresses.
- The hosting environment is resolved and located in Poland.

Closing Assessment

Ordinary browsing and standard booking activity are proportionate to the assessed posture, subject to routine independent checks of merchant identity, contractual terms, and payment protection before material transactions.

Written analysis generated 2026-08-17 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of wakacje.pl.

- The request stayed on wakacje.pl. It was not redirected to another domain. CLEAR
- Registration is published under OVH SAS. CLEAR
- DNS for this domain is served by wp.pl, across 2 name servers. NOTED
- The registration is paid up to 2027-06-22. NOTED
- It is hosted on WirtualnaPolska, from a server in PL. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about wakacje.pl at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
