

Is warframe.market legit? TrustSniffer's high-trust assessment: 90/100

warframe.market

Verdict

90

OUT OF 100

HIGH TRUST

warframe.market appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-02 by automated analysis. Classification confidence 55%.

What this site appears to be

Warframe Market is a fan site for browsing and posting player-to-player Warframe item trading orders across multiple platforms. It explicitly states that it is not affiliated with Digital Extremes and provides terms, privacy information, contact details, API documentation, and community links.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

Warframe Market is a fan-operated peer-to-peer marketplace where visitors browse and post Warframe item buy and sell orders across PC, Xbox, PlayStation, Switch, mobile, and cross-play environments using in-game Platinum.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, or other contradictory signals were observed. The homepage clearly identifies the service as unaffiliated with Digital Extremes and Warframe, which materially reduces brand-confusion risk; its marketplace functionality is consistent with the stated community trading purpose rather than a scheme promising financial returns. The domain also has a long-established presence and a strong global traffic footprint.

- The homepage provides an explicit non-affiliation disclaimer concerning Digital Extremes and Warframe.
- External reputation checks recorded 0 malicious and 0 suspicious detections, with no blacklist hit.
- Domain registration: 2014-11-13; age 11.72 years.
- Global traffic rank: 17733.

Regulatory Verification Notes

The site presents Terms of Service, Privacy Policy, Contact Us, API documentation, community links, and Patreon support. It does not present itself as a regulated financial service or claim a financial license; its disclosed model is a fan marketplace for in-game items and does not promise investment returns. This is a transparency point for institutional onboarding, not evidence of deception. The available third-party broker-reputation context produced no match.

- The homepage links to Terms of Service, Privacy Policy, Contact Us, and API documentation.
- The site identifies itself as a fan site rather than an official Digital Extremes service.
- Registered through Cloudflare, Inc.; registration expires 2026-11-13.
- The page describes trading in Warframe items using in-game Platinum.

What to Verify Next

Before institutional engagement, confirm that the proposed use complies with the relevant game-platform terms and review the site's Terms of Service and Privacy Policy. Contact channels and any commercial relationship should be confirmed through the site's published pages and established community channels.

- The homepage provides direct links to Terms of Service and Privacy Policy.
- Community channels listed on the site include Discord, Patreon, QQ, and GitHub.
- The marketplace exposes sign-in and order-posting functions without a sensitive payment form.

Summary Verdict

Warframe Market presents as a legitimate, established, and trustworthy community marketplace with clear scope, transparent non-affiliation language, substantive legal documentation, and no observed scam or impersonation contradictions. Normal interaction, including account login and standard marketplace use, is appropriate.

Infrastructure Integrity

The site is protected by Cloudflare's CDN/WAF, with all observed addresses belonging to Cloudflare edge infrastructure and no origin candidate identified. This reduces direct exposure of the underlying server and is a mitigating infrastructure control, although it does not independently establish legitimacy.

- Hosted on AS13335, CLOUDFLARENET — Cloudflare, Inc., US.
- Observed edge address: 104.26.1.182.
- TLS certificate issued by YE1 using DV validation, valid to 2026-10-30.

Closing Assessment

Standard browsing, login, and marketplace activity are proportionate to the site's established trust posture; institutional users should retain ordinary compliance review for any formal partnership or scaled integration.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	55/100
Identity verification confidence	60%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of warframe.market.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about warframe.market at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
