Full analysis

Overview

wealth.com.tw is an established Taiwanese financial-media and magazine publisher presenting business and investment journalism, expert columns, video programming, events, courses, forums, magazine subscriptions, individual issue sales, and related commercial promotions.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent editorial-media identity, with no phishing indicators, deceptive investment claims, brand impersonation, or suspicious commercial mechanics. External reputation checks were clean, and the site has a substantial established traffic footprint. The domain's long registration history and sustained archival presence further support continuity rather than recent fraudulent creation.

- Homepage analysis identified no red flags, hidden forms, sensitive forms, or external password forms.
- External reputation assessment recorded zero malicious and zero suspicious findings.
- Domain registration: 1986-01-16 (~40.57 years old).
- Web archive: 1,033 snapshots spanning 2001–2026 (26 years tracked).

Regulatory Verification Notes

The available content identifies the business as a financial-media and magazine publisher rather than presenting itself as a licensed investment platform. Registration records associate the domain with 財信雜誌社股份有限公司 through TWNIC. No licensing claim or license number is identified in the supplied page content; this is a limited disclosure point for regulatory applicability, not evidence of deception. No matching third-party broker profile was identified.

- Registration record lists 財信雜誌社股份有限公司 as owner and organization, with TWNIC as registrar.
- Served on AS396982 through GOOGLE-CLOUD-PLATFORM, Google LLC, US.
- TLS certificate issued by GlobalSign GCC R3 DV TLS CA 2020, validation level DV, valid to 2027-02-08.
- The homepage's stated model is editorial publishing with subscriptions, courses, forums, and commercial promotions; no license number is displayed.

What to Verify Next

For any arrangement that could constitute a regulated financial service, confirm the contracting entity and applicable permissions through the relevant Taiwanese official registry, and review the site's privacy, subscription, refund, and payment terms before completing a commercial transaction.

- The homepage provides access to membership and subscription functions.
- The homepage displays a privacy-policy reference and cookie-consent notice.

- The supplied content does not display a licensing claim or license number.

Summary Verdict

The site has a high-trust, established identity with convergent evidence of legitimate operation and no observed contradiction. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure, with observed traffic resolving through the edge rather than exposing an origin address. This provides a meaningful layer of infrastructure protection, while remaining a mitigating control rather than proof of legitimacy.

Closing Assessment

Proceed with normal site interaction, applying ordinary commercial and regulatory checks where a specific transaction or service falls within a regulated category.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about wealth.com.tw at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
