

Is wealthmagic.in legit? TrustSniffer's high-trust assessment: 100/100

wealthmagic.in

Verdict

100

OUT OF 100

HIGH TRUST

wealthmagic.in appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-07-31 by automated analysis. Classification confidence 70%.

What this site appears to be

Marketing page for Fintso, an Indian B2B wealthtech platform that helps financial advisors manage onboarding, investments, reporting, research, client applications, and administrative operations. The page presents detailed product capabilities, testimonials, company policies, support contacts, and an identified legal entity without explicit promises of guaranteed investment returns.

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2016.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website presents Fintso, an Indian business-to-business wealth-technology platform for financial advisers. It offers client onboarding and KYC workflows, mutual-fund transactions, portfolio reporting, white-label client applications, investment research, and back-office automation, apparently generating revenue through commercial platform relationships or service fees while advisers operate under their own brands and regulatory identifiers.

Scam/Impersonation Risk

No identity contradictions, brand impersonation, phishing indicators, or adverse threat-reputation findings were observed. The long-established domain and sustained archival record support provenance, while the professional, content-rich homepage is consistent with an established software business rather than a deceptive investment solicitation. Testing also found stable page behaviour, no cloaking, hidden forms, suspicious scripts, wallet interaction, clipboard interference, or external password submission.

- The domain registration record shows registration on 9 December 2010, making the domain approximately 15.65 years old.
- The web archive contains 111 snapshots spanning 2016–2026, with 11 years tracked and no detected suspicious repurposing or semantic drift.
- The homepage identifies Fintso as an integrated digital wealth platform and contains no guaranteed-return claims, cryptocurrency promotions, or detected impersonation cues.
- External reputation checks recorded zero malicious or suspicious detections, no reported abuse, and an established top-one-million traffic presence.

Regulatory Verification Notes

The homepage identifies a legal entity, provides business contact information and policies, and explains that advisers transact under their own brands and ARN identifiers. It does not make an explicit licensing claim or display a licence number in the supplied content; this is a limited disclosure-verification point, not evidence of fraud and not inconsistent with the stated role as a software provider serving financial intermediaries. No matching third-party broker record was identified, but that contextual result is not a regulatory determination.

- The homepage describes a B2B operating model centred on adviser technology, including “No Revenue Sharing” and transactions under each adviser’s own brand and ARN.
- The domain record names “Adapt Fintech Advisors Private Limitedacomp Web Technologies (I) Pvt. Ltd.” as the registrant organization and Endurance International Group India Private Limited as registrar.

- The site is served from AS17439 by NTT Communications India Network Services Private Limited.
- The site’s transport encryption uses a DV certificate issued by Go Daddy Secure Certificate Authority - G2, valid until 30 November 2026.

What to Verify Next

Institutional onboarding should confirm the contracting entity against current Indian corporate records, reconcile it with the entity named in contractual documents, and establish which party carries responsibility for transaction execution, custody, KYC, data processing, and adviser compliance. Any claimed ARN or other regulated authorization relevant to a proposed relationship should be checked directly with the appropriate official registry. Procurement teams should also obtain current security, privacy, service-continuity, and incident-notification documentation through independently confirmed business channels.

- The homepage states that the platform supports client onboarding, KYC, transaction execution, reporting, research, and administrative operations, creating several responsibilities that should be allocated contractually.
- The advertised white-label model means advisers may present services under their own brands, making counterparty and role mapping important during due diligence.
- Several additional offerings—including global investments, fixed deposits, equity baskets, loans against securities, peer-to-peer investments, and insurance—are labelled “coming soon” on the homepage and should be assessed only if included in the proposed service scope.

Summary Verdict

The website is legitimate, established, and trustworthy. Its coherent commercial identity, durable provenance, clean external reputation, professional content, and benign observed behaviour converge on a high-confidence assessment appropriate for normal interaction, including account login and standard use.

Infrastructure Integrity

The site resolves directly to one likely origin address in India and does not appear to use a CDN or WAF edge layer. This is a conventional, identifiable hosting posture; the supplied infrastructure evidence does not indicate abusive or evasive deployment, although infrastructure protection alone would not establish legitimacy.

Closing Assessment

Prospective users may interact with the website normally, while organizations considering a commercial integration should complete standard counterparty, contractual, and information-security due diligence appropriate to a financial-technology supplier.

Written analysis generated 2026-07-31 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of wealthmagic.in.

- The request stayed on wealthmagic.in. It was not redirected to another domain. CLEAR
- Registration is published under Endurance International Group India Private Limited. CLEAR
- DNS for this domain is served by azure-dns.org, across 4 name servers. NOTED
- The registration is paid up to 2026-12-09. NOTED
- The earliest public archive of this site is from 2016-07-30. CLEAR
- It is hosted on NCINSPL-IN, from a server in IN. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about wealthmagic.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
