- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2000.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is a Spanish-language Transbank Webpay landing page presenting secure online payments, merchant payment links, Webpay and Onepay checkout, and card-based payment acceptance; its apparent business model is transaction-based payment processing.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, or conflicting-identity indicators were observed. The site's long operating history, consistent payment-service presentation, clean external reputation, and absence of malicious behavioral indicators support an established and legitimate identity. The archive record shows continuity across the domain's documented history rather than suspicious repurposing.

- The homepage identifies the service as "Link de Pago Transbank - Webpay.cl" and describes payment processing and merchant payment links.
- The domain was registered in 1999 and is approximately 26.73 years old.
- The archive contains 125 snapshots spanning 2000–2026, covering 27 tracked years.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist or phishing hit.

Regulatory Verification Notes

The homepage presents a commercial payment-service model in which merchants receive credit, debit, and prepaid payments and pay a commission per sale. No license or registration number is disclosed in the supplied page content; this is a limited transparency point requiring ordinary regulatory confirmation, not evidence of fraud. The named entity, Transbank S.A., is technically consistent with the hosting and certificate identity.

- The homepage describes Webpay and Onepay payments, merchant payment links, and transaction commissions.
- Hosting resolves to AS16990, TRANSBANK S.A., Chile.
- The site uses an OV TLS certificate issued by DigiCert Global G2 TLS RSA SHA256 2020 CA1 for TRANSBANK S.A., valid through 2027-02-19.
- No matching broker-reputation record was found.

What to Verify Next

For a regulated onboarding or payment-partner decision, confirm the applicable authorization and corporate status through the relevant Chilean registry or regulator, and independently confirm the official support and contracting channels before entering into a commercial relationship.

- The homepage provides merchant onboarding through "Contratar Webpay.cl."

- The page states that merchants can share payment links through social media, WhatsApp, or email.
- The supplied content identifies the service and commercial model but does not provide a license number.

Summary Verdict

The website presents a legitimate, established, and trustworthy payment-service posture with no observed contradiction or impersonation signal. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site is directly hosted on Transbank S.A.'s Chilean network rather than behind a third-party CDN or WAF. This provides a consistent infrastructure identity, while the OV certificate and matching subject organization offer an additional mitigating integrity signal.

Closing Assessment

Standard use is appropriate, with licensing and commercial onboarding details confirmed through the applicable official channels for higher-value institutional engagement.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of webpay.cl.

- The request stayed on webpay.cl. It was not redirected to another domain. CLEAR
- Registration is published under NIC Chile. CLEAR
- DNS for this domain is served by akam.net, across 5 name servers. NOTED
- The registration is paid up to 2033-12-12. CLEAR
- The earliest public archive of this site is from 2000-06-20. CLEAR
- It is hosted on AS16990, from a server in CL. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about [webpay.cl](#) at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
