

Is widecom.in legit? TrustSniffer's high-trust assessment: 100/100

widecom.in

Verdict

100

OUT OF 100

HIGH TRUST

widecom.in appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-01 by automated analysis. Classification confidence 75%.

What this site appears to be

Ero WideCom Pvt Ltd presents broadband and enterprise connectivity services in Erode, India, including home and business plans, dedicated internet, MPLS, leased lines, VPN, and VoIP. The page includes pricing, connection-request forms, login and registration interfaces, contact information, customer testimonials, and a business address.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2016.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

Ero WideCom Pvt Ltd's website presents an Erode-based telecommunications provider offering residential and business connectivity services through subscription plans, service requests, customer support, and account access.

Scam/Impersonation Risk

No contradictions were observed. The site's stated model is internally coherent: broadband plans, dedicated internet, MPLS, leased lines, VPN, and VoIP are presented with pricing, connection-request mechanisms, contact details, testimonials, and a business address. Login and registration functionality was present without evidence of hidden forms, external password submission, wallet activity, cloaking, or brand impersonation. External reputation checks found no malicious or suspicious detections, supporting a low-risk assessment.

- The homepage identifies the business as Ero WideCom Pvt Ltd and presents broadband and enterprise connectivity services.
- The site's behavioral operation completed 2 successful runs, with 0 external XHR requests and 0 hidden forms detected.
- The domain was registered on 2014-01-07 and is approximately 12.57 years old; 400 archive snapshots span 2016–2026 across 11 tracked years.

Regulatory Verification Notes

The website provides a business identity, service descriptions, pricing, contact information, and a physical business address. No licensing authority or license number is claimed in the supplied content; this is a transparency item for regulatory verification, not evidence of fraud. The registration record identifies Endurance International Group India Private Limited as registrar and Ero Wide Comm Pvt Ltd. as the registrant organization. The site uses a valid DV TLS certificate issued by YR2, expiring 2026-10-15.

- The homepage and contact content identify Ero WideCom Pvt Ltd and provide business-contact details.
- The site describes paid broadband, leased-line, MPLS, VPN, and VoIP services delivered through monthly plans and business contracts.
- The domain registrar is Endurance International Group India Private Limited.
- TLS validation is DV; issuer YR2; certificate valid to 2026-10-15.

What to Verify Next

Confirm any applicable telecommunications authorization or local business registration through the relevant Indian registry, and independently confirm the provider’s current service area, pricing, and official contact channels before entering a new commercial agreement.

- The homepage includes pricing and connection-request forms.
- The contact page provides the business address and customer-contact information.
- The site includes Help & FAQs, Careers, About Us, and Contact Us pages supporting ordinary business due diligence.

Summary Verdict

The website is a legitimate, established, and trustworthy telecommunications provider with a coherent business identity, sustained online presence, clean observed reputation, and no detected impersonation or phishing indicators. Normal interaction, including account login and standard service use, is appropriate.

Infrastructure Integrity

The site resolves directly to a Unified Layer hosting environment in the United States, served from AS46606, with no CDN or WAF detected and one likely origin IP. This infrastructure provides identifiable hosting context but limited edge-layer protection.

Closing Assessment

Prospective customers may proceed with normal account and service interactions, while applying standard commercial due diligence before entering a material contract.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about widecom.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
