Full analysis

Security Alert

Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

wiflix.eu is a minimal parked-domain landing page that tells visitors the domain may be for sale and provides links to Terms of Service and Privacy Policy; it does not present an active product, service, account area, or transactional business model.

Scam/Impersonation Risk

Confirmed external reputation contradictions make this unsuitable for sensitive interaction. The domain is reported as blacklisted by multiple sources, with two malicious and three suspicious detections recorded; one Tier-1 security provider, Sophos, also flagged the domain. These findings are materially more significant than the homepage's otherwise inactive presentation. The page itself contains no login form, payment flow, wallet connection, active service, or detected brand-impersonation content, so the available evidence does not establish an active phishing or impersonation mechanism on the captured page. A separate abuse report concerns shared Trellian infrastructure and is discounted because it applies to the provider's shared IP rather than being specifically attributed to this domain.

EVIDENCE

- External reputation assessment recorded 2 malicious and 3 suspicious detections from 10 evaluated results, with Sophos among the flagged providers.
- The domain is listed in external blacklist results; Google Safe Browsing did not report a malicious result.
- The homepage is a parked “domain may be for sale” page with no login, sensitive form, payment flow, or wallet interaction.
- One abuse report is associated with IP 103.224.182.253, attributed to shared Trellian infrastructure rather than specifically to the domain.

Regulatory Verification Notes

The site is not an operating financial or commercial service in the captured state, but it also provides no identifiable operator, licensing claim, registration number, or regulated-service disclosure beyond generic Terms of Service and Privacy Policy links. The real-world operator therefore remains unverified, and the available content is insufficient to establish legal identity or regulatory standing. A valid transport certificate and a named registrar are infrastructure facts, not evidence that the domain owner is licensed or that any future service using the domain would be authorised.

EVIDENCE

- The homepage identifies the site only as “wiflix.eu” and states that the domain may be for sale.
- The domain is registered through Registrar.eu.
- TLS is provided at DV validation level by issuer YR1 and is valid to 2026-11-16.
- Hosted on AS133618, TRELLIAN-AS-AP — Trellian Pty. Limited, AU.

What to Verify Next

Before any future engagement, independently identify the operating entity through an authoritative corporate registry and confirm any claimed licence directly with the relevant regulator. Any proposed purchase, account creation, payment, or other sensitive interaction should remain suspended unless the operator, purpose of the domain, and official communication channels are independently corroborated. The Terms of Service and Privacy Policy should also be reviewed for a named legal entity, governing jurisdiction, and enforceable responsibility for the service.

EVIDENCE

- The homepage links to Terms of Service and Privacy Policy but does not present an active service or transaction.
- No service forms, sensitive forms, or transactional flows were observed on the captured page.
- The operator identity and regulatory status are not established by the available site content.

Summary Verdict

The overall posture is critically unsuitable for credentials, account access, payments, or other sensitive interaction. The confirmed external reputation contradictions outweigh the limited benign characteristics of the parked landing page, and the operator’s real-world identity has not been independently established.

Infrastructure Integrity

The site resolves to one likely origin IP, with no trusted CDN or WAF detected. Hosting is provided by Trellian Pty. Limited in Australia; this infrastructure offers no meaningful legitimacy assurance and does not offset the external reputation findings.

Closing Assessment

Restrict activity to passive observation and do not proceed with login, credential submission, financial activity, or other sensitive interaction unless the domain's ownership and intended use are independently validated.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about wiflix.eu at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
