

Is withnews.kr legit? TrustSniffer's high-trust assessment: 90/100

withnews.kr

Verdict

90
OUT OF 100

HIGH TRUST

withnews.kr appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-02 by automated analysis. Classification confidence 70%.

What this site appears to be

A Korean content site named withnews presents informational articles, including finance, welfare, and sports topics. The page includes an extensive consent-management interface describing personalized advertising and data sharing with numerous vendors.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2020.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

withnews is a Korean-language informational publishing site covering finance, welfare, sports, and related topics, supported primarily by advertising and audience monetization rather than direct payments or investment deposits.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, or other contradiction was observed. The homepage presents a substantial article archive and standard navigation, with no sensitive-data forms, wallet connection, cloaking, or suspicious browser behavior. Its established continuity and clean reputation support a legitimate content-publishing identity.

EVIDENCE

- Domain registered in 2019 (~6.81 years old).
- 119 archive snapshots spanning 2020–2026 (7 years tracked).
- The homepage contains no login form, sensitive form, or untrusted submission destination.
- Reputation checks recorded zero malicious and zero suspicious detections.

Regulatory Verification Notes

The site provides Privacy Policy, Terms, and Contact pages, but does not present a licensing number or regulated-financial-service registration claim. This is a limited disclosure point rather than evidence of deception, because the observed business model is informational publishing and advertising. The extensive consent interface describes personalized advertising and data sharing with 210 partners, making privacy-settings review relevant.

EVIDENCE

- The homepage title describes finance, welfare, and informational content.
- The site exposes Privacy Policy, Terms, and Contact links.
- Registration is through Megazone (HOSTING.KR).
- TLS certificate issued by WE1 (DV), valid to 2026-10-19.

What to Verify Next

For consequential financial decisions, article claims should be cross-checked against primary government, institutional, or provider sources. The Privacy Policy and consent controls should also be reviewed to confirm acceptable advertising and data-use preferences.

EVIDENCE

- Finance-related articles are available through the homepage article index.
- The consent interface provides options to consent, decline, or manage data preferences.

Summary Verdict

The website presents as an established, legitimate, and trustworthy informational publisher with no observed scam or impersonation indicators. Its overall posture supports normal interaction and ordinary account use.

Infrastructure Integrity

Cloudflare provides the site’s CDN/WAF protection, and observed addresses are CDN edge servers rather than a directly exposed origin. This reduces direct infrastructure exposure and is a mitigating security control, not independent proof of legitimacy.

EVIDENCE

- Hosted on AS13335 (Cloudflare, Inc.); observed edge IPs are 172.66.40.237 and 172.66.43.19.
- The site’s transport encryption uses a valid DV certificate issued by WE1.

Closing Assessment

Normal browsing, account login, and standard use are appropriate within ordinary organizational security and privacy controls.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of withnews.kr.

- The request stayed on withnews.kr. It was not redirected to another domain. [CLEAR](#)
- Registration is published under Megazone(<http://HOSTING.KR>). [CLEAR](#)
- DNS for this domain is served by cloudflare.com, across 2 name servers. [NOTED](#)
- The registration is paid up to 2026-10-14. [NOTED](#)
- The earliest public archive of this site is from 2020-08-10. [CLEAR](#)
- It is hosted on CLOUDFLARENET, from a server in US. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about withnews.kr at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
