

Is wowtv.co.kr legit? TrustSniffer's high-trust assessment: 100/100

wowtv.co.kr

Verdict

100

OUT OF 100

HIGH TRUST

wowtv.co.kr appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-07-25 by automated analysis. Classification confidence 55%.

WHAT THIS SITE APPEARS TO BE

Korean-language business and financial news portal with live TV, program listings, market data and events. Appears to be an established media site operated by a Korean company (company information and contact present in footer).

Evidence status and limitations

Evidence completeness: UNKNOWN

- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

A Korean business and financial news portal, the website presents live television, program schedules, market data, investment analysis, news coverage, memberships, partner services, and financial events, with an apparent business model based on media publishing, advertising, subscriptions, and commercial partnerships.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent news-and-broadcasting identity, with Korean economic reporting, live programming, market indicators, customer-service details, and established social-media links. Its content and observed behavior show no phishing, brand-impersonation, malicious, or suspicious indicators.

- Homepage: Identified as a Korean business and financial broadcaster with live TV, news, market data, and program listings.
- Homepage behavior: No hidden forms, wallet-drainer activity, clipboard manipulation, cloaking, or suspicious scripts were detected.
- External reputation checks: Zero malicious and zero suspicious findings were recorded.

Regulatory Verification Notes

The site appears to operate as a media publisher rather than presenting itself as a licensed financial institution. Company information and contact details are present in the footer, while no specific financial-services license or registration number is claimed in the supplied content. This is a limited regulatory-disclosure point, not evidence of fraud or identity contradiction.

- Footer: Identifies company information, customer support, operating hours, and copyright ownership.
- Technical identity: Domain registered on 1999-08-07 and approximately 27.01 years old; registrar listed as MAILPLUG Inc.
- Hosting and transport: Served from AS4766 (Korea Telecom); TLS issued by Thawte TLS RSA CA G1 using OV validation, valid to 2027-01-09.
- Business model: Financial news, broadcasting, subscriptions, partner services, and events are presented as the principal activities.

What to Verify Next

For any regulated investment or advisory service promoted through the site, the relevant corporate and licensing details should be checked against the applicable official registry, while paid partner offerings should be reviewed

under their own contractual and regulatory terms. Official contact channels should be confirmed through an independently sourced corporate directory or other offline route before resolving material disputes.

- Footer: Provides the company and customer-service context needed for independent corporate verification.
- Partner and investment pages: Present paid services, recommendations, investment analysis, and events requiring activity-specific review.
- Account area: Provides login and membership functions for standard account administration.

Summary Verdict

The website has the profile of a legitimate, established, high-trust media organization with a consistent identity and no observed scam or impersonation indicators. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The supplied infrastructure record does not establish a CDN/WAF layer or a distinct origin-protection posture, so infrastructure protection is treated as neutral rather than as proof of legitimacy.

Closing Assessment

Standard use is appropriate, with activity-specific regulatory checks reserved for paid or investment-related services.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	79/100
Identity verification confidence	78%

- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of wowtv.co.kr.

- The request resolved to m.wowtv.co.kr, a subdomain of wowtv.co.kr. NOTED
- Registration is published under MAILPLUG Inc.(http://www.mailplug.com). CLEAR
- DNS for this domain is served by ns-ncloud.com, across 2 name servers. NOTED
- The registration is paid up to 2026-08-07. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about wowtv.co.kr at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
