

Is yen.com.gh legit? TrustSniffer's high-trust assessment: 100/100

yen.com.gh

Verdict

100

OUT OF 100

HIGH TRUST

yen.com.gh appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-11 by automated analysis. Classification confidence 55%.

What this site appears to be

YEN News is a Ghana-focused online news portal covering national and international news, entertainment, sports, business and lifestyle. The site displays editorial content, links to social channels and commercial features such as advertising and 'Advertise with us' and affiliate disclaimers.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Full analysis

Overview

YEN News is a Ghana-focused online news portal presenting national and international reporting across politics, business, entertainment, sports, lifestyle, technology, and related topics. Its apparent business model is that of a commercial digital publisher supported by advertising, sponsored or branded content, affiliate links, and audience-engagement channels.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent news and media service, with no detected phishing, credential-harvesting, hidden-form, wallet, or brand-impersonation indicators. External reputation checks were clean, and the site has an established audience and page-authority footprint consistent with a functioning publisher rather than an abuse-oriented operation. This supports an apparently legitimate, low-risk assessment, while not independently proving the real-world operator's identity.

EVIDENCE

- Homepage: news categories, editorial articles, social-channel links, and commercial publishing features are present; no sensitive form or login form was detected.
- Homepage behavior: no external posting activity, hidden forms, cloaking, wallet activity, clipboard manipulation, or suspicious inline scripts were observed.
- External reputation: evaluated checks recorded zero malicious detections, zero suspicious detections, and no phishing or impersonation contradiction.
- Domain registration record: registered 2015-07-07, approximately 11.1 years old.

Regulatory Verification Notes

The observed content identifies a commercial news publisher and includes advertising, "Advertise with us," sponsored-content, and affiliate disclosures. No regulated financial-service offering or licensing claim was identified, and no license or registration number was presented in the observed publisher content; for this business model, that is a verification point rather than evidence of deception. Registration records associate the domain with Olusola Ogundimu and Integrated Legal Consultants Limited through Ghana Dot Com, but the available evidence supports only a likely connection and does not independently verify the operating entity. The absence of a third-party broker match is a neutral-to-positive reputational signal, not a regulatory determination.

EVIDENCE

- Homepage: identifies YEN News as a Ghana-focused news outlet and describes commercial advertising and affiliate activity.
- Registration record: registrar Ghana Dot Com; registrant Olusola Ogundimu; organization Integrated Legal Consultants Limited.
- Hosting telemetry: served from AS16509, Amazon.com, Inc., US.
- Transport security: TLS certificate issued by Amazon RSA 2048 M04, validation level DV, valid to 2026-10-23T23:59:59+00:00.

What to Verify Next

Before credential or payment interactions associated with any ancillary service, independently confirm the publisher's legal entity and official contact channels using information obtained outside the website. Any paid advertising, subscription, application, or other commercial arrangement should be checked against clearly stated contracting terms, refund conditions, and payment-provider protections. Where a regulated service is introduced separately from the news operation, its claimed authorization should be checked with the relevant regulator.

EVIDENCE

- Homepage: presents advertising, affiliate, and audience-engagement activity, creating distinct commercial touchpoints that can be checked against their applicable terms.
- Homepage: links to multiple social and messaging channels that can be compared with independently sourced official accounts.
- Observed page behavior: no credential or payment form was detected during analysis, so any later transaction surface should be assessed separately.

Summary Verdict

Available evidence supports a **high-trust, apparently legitimate, low-risk website** with an established operating profile and no observed scam or impersonation contradictions. The connection to a real-world operator remains likely rather than independently verified, so the legitimacy conclusion is evidence-consistent rather than proven.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure, and all observed addresses were CDN edge endpoints associated with Amazon AS16509; no origin candidate was identified in the observed network posture. This is a mitigating exposure-control measure, not independent proof of legitimacy.

Closing Assessment

Normal browsing is proportionate to the assessed posture; before submitting credentials or making payments, ordinary independent checks of the counterparty, terms, and payment protections should be completed.

Written analysis generated 2026-08-11 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	80/100
Identity verification confidence	80%

- Trusted social count=4

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of yen.com.gh.

- The request stayed on yen.com.gh. It was not redirected to another domain. CLEAR
- Registration is published under Ghana Dot Com. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-11-11. CLEAR
- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about yen.com.gh at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
