- Automated classification: Not Scam.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2024.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The Yo-kai Watch Puni Puni Web Shop is an official-looking ecommerce site offering discounted digital items, points, coins, and resource packs for the Yo-kai Watch Puni Puni mobile game, supported by direct purchases, publisher attribution, legal notices, and customer-support pathways.

Scam/Impersonation Risk

No contradictions, phishing indicators, brand-impersonation signals, or confirmed blacklist findings were observed. The homepage presents a coherent game-specific storefront, including named item packs, coins, tickets, and in-game resources priced in Japanese yen, without financial manipulation, cryptocurrency, wallet-connect, or deceptive-login behavior. Normal account login and standard purchasing are appropriate.

- The homepage identifies the Yo-kai Watch Puni Puni Web Shop and lists game-specific digital products and prices.
- Page analysis recorded no red flags, no suspected brand impersonation, and no sensitive or hidden forms.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist or phishing result.

Regulatory Verification Notes

The site provides publisher attribution, legal notices, terms, privacy information, help, and contact links appropriate to a consumer digital-goods storefront. No financial-services license is claimed in the supplied evidence; this is a transparency point for confirming the operator's commercial authority, not an indication of deception. The available reputation context does not identify a relevant broker match.

- The homepage links to legal, policy, help, and contact information and attributes the publisher/operator.
- The domain was registered on 2024-10-17 and is approximately 1.79 years old.
- Archive records contain 344 snapshots spanning 2024–2026 across 3 years.
- The site is hosted on AS16509, Amazon.com, Inc.; its TLS certificate is issued by Amazon RSA 2048 M01 at DV level and is valid through 2026-10-25.

What to Verify Next

A prospective purchaser should confirm that the operator and publisher names on the legal and terms pages correspond to the official Yo-kai Watch Puni Puni service, and should review refund, delivery, account-linking,

and purchase-limit provisions before completing a transaction. Official support channels should be confirmed through the site’s help and contact pages or an independent publisher channel.

- The homepage contains the product catalogue, pricing, purchase limits, and promotional expiry dates.
- The terms, privacy, help, and contact pages provide the relevant documents and support routes for review.

Summary Verdict

The website presents as a legitimate, established, and trustworthy consumer ecommerce service with a coherent business purpose and no observed contradiction-based risk. Its evidence profile supports normal interaction, including login and standard account actions.

Infrastructure Integrity

The site uses AWS CDN/WAF protection, and observed addresses were CDN edge infrastructure rather than exposed origin candidates. This provides a meaningful reduction in direct-origin exposure while remaining a mitigating technical control rather than proof of legitimacy.

Closing Assessment

Standard browsing, account login, and ordinary purchases are appropriate, subject to the usual review of transaction terms and support procedures for digital goods.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of yokai-punipuni-webshop.jp.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about yokai-punipuni-webshop.jp at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
