- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

The website is a Brazilian online retailer for sneakers, streetwear, clothing, and lifestyle accessories. It presents branded product categories, promotions, installment payments, PIX discounts, shipping and exchange information, WhatsApp support, and customer account functionality, indicating a conventional ecommerce sales model.

Scam/Impersonation Risk

No contradictions, phishing indicators, brand-impersonation signals, or confirmed malicious reputation findings were observed. The homepage presents a coherent retail storefront with extensive product categorization and normal purchasing features rather than deceptive financial or credential-harvesting mechanisms. The domain is long-established, further supporting continuity of the operating identity.

- Homepage: comprehensive sneaker, streetwear, clothing, and accessory catalog with recognized brand and model categories.
- Homepage behavior: no hidden forms, wallet activity, suspicious scripts, cloaking, or external password forms detected.
- Domain registration: created 2010-06-11 and approximately 16.15 years old.

Regulatory Verification Notes

The site's apparent business is ordinary product retail, not a service type that inherently requires financial licensing. The supplied content does not show a regulatory license or registration number, so formal business and consumer-protection disclosures should be confirmed if required for the transaction. The registration record names IDN COMERCIO DE ARTIGOS DA MODA LTDA, while third-party reputation checks provided no broker match or material threat finding.

- Registration record: owner listed as IDN COMERCIO DE ARTIGOS DA MODA LTDA; expiration date 2027-06-11.
- Hosting infrastructure: served from AS19089 (Scala Data Centers, BR).
- Transport encryption: TLS certificate issued by YR2, domain-validated, valid to 2026-09-26.

What to Verify Next

Confirm that the checkout, payment recipient, shipping terms, exchange policy, and customer-support channels align with the retailer's published business identity. For higher-value purchases, independently confirm any required Brazilian business or consumer-registration details through the relevant official registry.

- Homepage: advertises installment payments, PIX discounts, shipping offers, and exchanges.
- Homepage: provides WhatsApp support and customer-account functionality.
- Product storefront: identifies the business as a sneaker, streetwear, and lifestyle retailer.

Summary Verdict

The website presents a legitimate, established, and trustworthy ecommerce posture with no observed indicators of impersonation, phishing, or malicious operation. Normal interaction, including account login, checkout, and standard purchasing activity, is appropriate.

Infrastructure Integrity

Cloudflare CDN/WAF protection provides a mitigating layer between visitors and the site's origin, while the observed edge address is associated with AS19089 (Scala Data Centers, BR). This protective configuration supports resilience and reduces direct origin exposure, but is appropriately treated as infrastructure mitigation rather than proof of legitimacy.

Closing Assessment

Standard use is appropriate; routine confirmation of transaction and fulfillment details remains proportionate for any significant purchase.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about youridstore.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
