

Is zaity.ma legit? TrustSniffer's high-trust assessment: 100/100

zaity.ma

Verdict

100

OUT OF 100

HIGH TRUST

zaity.ma appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-07-31 by automated analysis. Classification confidence 70%.

What this site appears to be

Zaity is a Moroccan online and physical retailer offering natural cosmetics, vegetable and essential oils, skincare, haircare, aromatherapy supplies, cosmetic ingredients, supplements, and beauty accessories. The page presents priced products, customer reviews, delivery information, legal and customer-service links, store locations in Casablanca and Rabat, and a standard account login.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2019.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is an established Moroccan ecommerce storefront selling natural cosmetics, vegetable and essential oils, skincare and haircare products, aromatherapy supplies, cosmetic ingredients, supplements, and beauty accessories through online sales and physical stores.

Scam/Impersonation Risk

No identity contradictions, phishing indicators, brand impersonation, malicious behavior, or deceptive financial claims were observed. The standard account-login form remained on the site's own infrastructure, with no hidden forms or external password submission. This clean behavior converges with a long-established domain, continuous archival history, and an unflagged external reputation.

- The homepage showed a conventional WordPress/WooCommerce retail catalogue with prices, customer reviews, shopping-cart functions, and an account-login form.
- Interactive testing found no hidden forms, external password forms, cloaking, clipboard interference, wallet-related activity, or suspicious inline scripts.
- External reputation checks recorded 0 malicious and 0 suspicious detections, no safe-browsing warning, no reported abuse, and no signature matches.
- Domain and archive records show registration on 26 February 2019 (~7.43 years old), with 60 archive snapshots spanning 8 July 2019–19 December 2025 (7 years tracked) and no detected repurposing.

Regulatory Verification Notes

The registrant is identified as NATURAL CENTER, with registration administered by ARCANES TECHNOLOGIES. The reviewed material did not establish a specific licence or regulatory registration; for an ordinary cosmetics retailer, that is a disclosure point rather than evidence of fraud. No matching broker-reputation record was identified, and the site makes no apparent investment, brokerage, or cryptocurrency proposition to which such status would naturally apply.

- The domain-registration record names NATURAL CENTER as owner and ARCANES TECHNOLOGIES as registrar, with registration valid until 26 February 2027.
- The homepage presents a direct-to-consumer retail model rather than financial, investment, brokerage, or cryptocurrency services.
- The site's transport encryption uses a WE1-issued domain-validated TLS certificate, valid to 4 October 2026.
- The reviewed page content contained no claimed licence authority or licence number.

What to Verify Next

For higher-value or repeat purchasing, the business name and physical locations can be checked against independent Moroccan commercial records and mapping sources. Product-specific claims, ingredient declarations, return conditions, and delivery terms should be reviewed before purchase, particularly for supplements, essential oils, and products intended for health-related use. Official contact channels can also be independently confirmed before resolving payment or fulfilment disputes.

- The homepage lists physical retail locations in Casablanca and Rabat, providing concrete details suitable for independent confirmation.
- The storefront provides delivery, contact, about, and legal/customer-service navigation for reviewing transaction conditions.
- The catalogue includes supplements, aromatherapy products, cosmetic ingredients, and laboratory tools, making product-level suitability and labelling relevant to purchase decisions.

Summary Verdict

The website is legitimate, established, and trustworthy, with consistent identity, commercial content, historical continuity, clean reputation, and stable technical operation. No contradictory risk signals were found. Normal interaction, including account login and standard ecommerce transactions, is appropriate.

Infrastructure Integrity

The site is protected by Cloudflare's mainstream CDN/WAF infrastructure. All four observed addresses were Cloudflare edge nodes, so the origin server was not exposed during the analysis; this reduces direct infrastructure exposure but is treated as a security control rather than independent proof of legitimacy.

- The hosting infrastructure is served from AS13335 (CLOUDFLARENET — Cloudflare, Inc., US).
- Four CDN edge addresses were observed, with no likely origin-server address identified.

Closing Assessment

Prospective customers may use the site normally while applying standard ecommerce precautions appropriate to product selection, payment, delivery, and returns.

Written analysis generated 2026-07-31 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of zaity.ma.

- The request stayed on zaity.ma. It was not redirected to another domain. CLEAR
- Registration is published under ARCANES TECHNOLOGIES. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-02-26. NOTED
- The earliest public archive of this site is from 2019-07-08. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about zaity.ma at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
